

5th International Conference on Rabies in West Africa (RIWA/REAO)

"Creating One Health Action for Stepwise Elimination of Rabies in West Africa by 2030"

22-25 October, 2018 | Bamako | Mali

Bienvenue! (Welcome!)

The RIWA Mali Organizing Committee, the Ministry of Agriculture and Animal Health, and the Ministry of Health and Public Hygiene jointly host the 5th international conference on Rabies in West Africa. The event brings internationally renowned experts to present scientific and technical papers and to provide one-to-one advice and support for connectivity in "creating One Health Action for stepwise elimination of rabies in West Africa by 2030: fostering enabling environment for rabies-free ECOWAS sub-region". The conference covers regional and global perspectives on human and animal rabies control; infrastructure for surveillance of rabies and rabies related viruses; the use of geographic information systems in surveillance capacity building; and improving treatment outcomes. Participants are drawn from Mali, Benin, Cote d'Ivoire, Ghana, Liberia, Nigeria, Sierra Leone, the Gambia, East and Southern Africa, Switzerland, the West Indies, United Kingdom, United States and beyond.

Scientific and Technical Sessions

The scope includes domestic animal, wildlife and human populations.
